Third Liberty Loan Passed "Over the Top" Thursday

VAVRA, DREW AND FRENCH ELECTED CITY TRUSTEES

Lavering and Nutt Re-elected Treasurer and Clerk; Eighty-one Per Cent of Registered Vote Cast; Big Vote For French Surprise of the Day; 484 Voters Visited Polls, 228 of Whom Were Women.

There was but one surprise at the city election, Monday, and that was the big vote given E. E. French, one of the candidates for city trustee, on the ticket for the four-year term. Most of those who usually keep check on such matters conceded Mr. French to be among the winners, but no one ever suggested that he would lead the field. His great complimentary vote was a genuine surprise to all, including Mr. French himself, who had not expected to flag his competitors from the drop of the hat, although he felt confident he would be elected. When asked after the count if he could assign any particular reason for the phenomenal vote accorded him, Mr. French stated that he could not, other than that some of his friends had told him he was liable to be defeated, which had caused him to work harder than he perhaps otherwise would have done.

Mr. French received 113 more votes than his closest competitor, Richard Drew, whom many thought at the start would be high man when the ballots were counted.

There was no particular issue involved in the election, consequently the contest was a friendly one, and everybody was pleasant about it, and the splendid community spirit that has prevailed in Huntington Beach for some time past was not disturbed.

There was general regret at the defeat of Mr. French two years ago, when he lost by 8 votes, and the debt was evidently repaid with interest, Monday, as he received about 60 per cent of the total vote, with five competitors in the field against him—a decidedly flattering showing.

Mr. Drew nosed out under the wire with 14 more votes under his arm than were given Trustee D. W. Huston.

The short term trustee job was won by Trustee Joseph Vavra by defeating L. M. Lindsley by 50 votes.

Trustees Vavra and Huston and Mr. Drew made little or no effort to further their election, therefore the vote going to them was entirely complimentary.

For city treasurer, C. E. Lavering, cashier of the First National Bank, was re-elected by the comfortable margin of 86 votes over his former business partner, Judge W. D. Seely.

Chas. R. Nutt was again elected city clerk by a large majority over J. B. Irwin. However, Mr. Irwin made a more creditable showing than the candidates who opposed Mr. Nutt at the two previous encounters, when he polled about 70 per cent of the vote, while Monday his vote dropped to 62 per cent.

Most of those who usually take an interest in elections had prophesied that Mr. Vavra would win over Mr. Lindsley, and that Trustee Huston, Mr. French and Mr. Drew would be the three high candidates when the returns were in, and that Mr. Nutt and Mr. Lavering would be re-elected.

The vote was as follows:

Trustee—Four-Year Term.

French (elected)	284
Drew (elected)	171
Huston	157
Williams	142
Young	109
Bingle	58

Trustee—Two-Year Term.

Vavra	251
Lindsley	201

City Clerk.

Nutt	301
Irwin	172
Nutt's majority	129

City Treasurer.

Lavering	219
Seely	133
Warner, I. C.	122
Lavering's plurality	86

There were 592 voters registered, and 484 of them took occasion to visit the polls, being about 82 per cent of the total, and 228 of these were women and 256 men.

L. R. Whitney, Lawrence Davis, C. S. Bundschuh and E. A. Viall had charge of the polling place, and had a strenuous day, as it was almost 11 o'clock when the count was completed.

Anna Taylor was the first voter to cast a ballot; W. S. Thomson was number 13 and E. C. Wright 23, and H. T. Dunning the last one to vote. C. W. Winston, one of the field men for the Holly Sugar Corporation, arrived three minutes after the polls had closed.

WOMAN'S CLUB WILL GIVE ENTERTAINMENT.

FRIDAY EVENING, APRIL TWENTY-SIXTH.

McCreery, the world-renowned comedian, who has consented to quit thinking about the cultivation of the sugar beet long enough to assist in the good work. It is anticipated that the program will last about two hours, and will be worth at least four times the price of admission.

There was a meeting of the committee having charge of the affair, Wednesday morning, at the home of Mrs. T. B. Talbert, when partial arrangements were completed. Other members of the committee are Mrs. H. V. Anderson, Mrs. Chas. H. Endicott, Mrs. E. A. Maher, Miss Turner, Mrs. S. A. Moore and Mrs. C. C. Newland.

PREPARING TO MAKE ELECTRIC RAZORS

WILL OCCUPY M. E. HELME BUILDING ON WALNUT.

OUTPUT 2000 PER MONTH

Corporation Has Been Granted Permission to Sell Stock; 214 Parts In Each Razor; M. B. Stearns, the Inventor.

There are splendid prospects that there will soon be a factory in this city that will be turning out 2000 electric safety razors per month, that will be sold all over the United States and other sections of the world.

The company is owned by M. E. Helme, formerly chairman of the board of trustees of this city; L. B. and M. B. Stearns. The corporation is known as the Stearns Electric Safety Razor Company, and has recently been granted permission by the commissioner of corporations of California to sell 50,000 shares of the capital stock of the company at $1 per share, to be used to complete the equipment of the factory and for a sufficient working capital to successfully operate the business.

This razor is in reality a clipper, but is so fine as to apparently shave, being operated by electricity through a tiny motor in the handle. The razor is 5½ inches long and 3¾ inches in circumference, weighing 4 ounces, and contains 214 different parts, and is operated by making connection with any ordinary light socket. The blades are notched, similar to saw teeth, and vibrate at the rate of 8000 per minute.

The company now has in the factory room on Walnut avenue what Mr. Stearns, the inventor, states is a complete set of dies for manufacturing the various parts required in assembling these razors for the market. A portion of the machinery required for manufacturing parts is also in place, but about $6000 worth of additional machinery is necessary for the operation of the plant.

Mr. Stearns also stated, Tuesday afternoon, when the factory was being inspected, that there are now 1000 of these razors almost ready for assembling, which there is a ready market for at $25, less a selling cost of $8.33.

A salesman has been as far east as Ohio, and there is absolutely no doubt about there being a market for all that the new factory can produce, at $25 each, which, experience has shown the officials of the company, can be manufactured for $2.87 each, which leaves a handsome margin of profit.

Dr. Murphy, formerly a physician of Santa Ana, has charge of the selling department of the company, and recently returned from Ohio, and reports an unlimited market for the razor at the price named, in hospitals, undertaking establishments and beauty parlors. There are 36,000 hospitals in the United States. Dr. Murphy states each of them will buy from one to four of these razors, depending on the number of operating rooms. They can also be sold to penal institutions and asylums, not to mention the army and navy, which will in due time be the greatest market for the razors.

About $25,000 are required to properly operate the business, and Mr. Helme is secretary and treasurer, one of the most honest men in the community, which insures that the money will not be improperly used.

The Hotpoint Company of Ontario, the largest manufacturers of electrical appliances, equipment and household utensils, offered to manufacture this razor on a royalty, but was considered too small by Mr. Stearns and Mr. Helme, and they decided to place it on the market themselves. The man in charge of the estimating department of this big concern placed the cost at $1.75 for each razor ready for shipment.

Therefore, if this razor can be made for $2.87 and sold for $16.66 net to the corporation, and there is an unlimited market, it follows that this company has one of the best propositions offered investors at this time. It is estimated that but 20 employes will be

MANY VISITORS WERE HERE SUNDAY.

FINE DAY CAUSED THEM TO COME TO BEACH.

There was a large number of strangers along the beach Sunday, due to the fine clear weather, which caused many of the interior residents to motor to the beaches. Some of the visitors enjoyed fishing, and a few took a plunge in the surf.

Wharton, proprietor of Wharton's Cash Store, has added some new lines to his stock, including the finest line of pickles in the city, sour and sweet pickles, mixed and plain, chow chow, relish, dill pickles, onions and ripe olives. HUNTINGTON BEACH IS INTENSELY LOYAL

PLENTY OF MONEY FOR LIBERTY BONDS.

OVER $30,000 SUBSCRIBED

Few Citizens Who Can Afford to Buy Have Declined to Do So; Most Everybody Eager to Assist the Government.

The citizens of Huntington Beach have shown their intense loyalty to the Government that is fighting to break the autocratic fetters that are now endangering the civilized world, by oversubscribing their quota of the Third Liberty Loan.

Judge Copeland, chairman of the committee having the matter in charge in this section of the county, stated Thursday morning that the subscriptions had passed the $30,000 mark, and one of the country districts had not been heard from. The allotment for Huntington Beach and vicinity was $27,100, and the campaign opened Saturday morning, although but little was done until Monday morning. Therefore the amount has been more than contributed in but three days, which is certainly a flattering tribute to the genuine patriotic spirit that is prevalent in this community.

Nearly everyone appears to realize that the war must be won, as there is absolutely no other way out; and it requires money to accomplish this end.

And there is also a desire to show the world that there is no more loyal community in the entire land that is protected by the Stars and Stripes than this section of the Santa Ana river valley.

At the close of the campaign the names and the amount subscribed will be published in the News, so that the world may know the loyal citizens who can afford to buy bonds and feel a deep pride in doing so.

The fact is thoroughly realized that there are legions of those who cannot afford to assist the Government financially, and all they are expected to do is talk loyalty day and night until this struggle has been won.

LOS ANGELES MAN BUYS PROPERTY HERE.

$4000 PROFIT MADE IN FOUR MONTHS

A. L. WORTHY MAN WHO TURNED THE TRICK.

ONLY A $125.00 INVESTMENT

Young Rancher Breaks All Records For Quick Profits On Small Amount Invested; $800 Per Acre Paid.

Some of the old-timers can tell some good stories about quick profits on shoestring investments in this city shortly after the townsite was placed on the market, but there is nothing in the ancient history that equals the deal made by Andrew L. Worthy, one of the prosperous lima bean growers in the Wintersburg district, which was closed Saturday of last week.

Mr. Worthy has made some money growing beans, and he thought he would buy some more good bean land, if he could find some owner who did not particularly need a large amount of cash as the initial payment.

He interviewed William Butler of Long Beach, who owned 20 acres south of the fine ranch of Hansler Larter, about two miles north of the sugar factory, and Mr. Butler agreed to sell this tract to Mr. Worthy for the sum of $12,000, with a first payment of but $125, the remainder to be paid in installments, covering a period of ten years. Mr. Butler felt that he would rather collect the interest than to be bothered owning the land. The agreement was given Mr. Worthy in November of last year, and just four months later he had placed an agreement in escrow to sell this land to C. L. Nickle and William Warren of Glendora and Julian Wright of Azusa, orange growers, for $16,000. Consequently Mr. Worthy makes a profit of $4,000 in four months on an investment of only $125—appears almost incredible, but the records bear out the statement.

It does not follow that anyone else will be able to duplicate this remarkable transaction in the near future, as it seldom occurs that owners are willing to dispose of valuable holdings without the buyer making a substantial payment.

There is another big feature about this transfer, as it establishes a record price for land in this section of the county. A few weeks ago the Keseman ranch was sold for $700 per acre, which, it was supposed, would be the top price for some time to come. If the war continues there is no doubt but what the best of the peatlands will be selling for $1,000 or more per acre before many months.

Mr. and Mrs. Worthy are well known in Huntington Beach, as they resided here about three years ago, and Mr. Worthy was engaged in the garage business for a while, but decided he would rather grow limas.

The transfer was made through the agency of Judge W. D. Seely, and was the result of a block of peat which he has in one of his windows. Mr. Wright owns a summer home at Sixteenth and Olive, and last summer talked about this display with Mrs. J. R. Graham, daughter of Mr. Seely, who was in the office at that time, and he was told of the immense crops grown on this land. Therefore, when he and some of his friends found they had some money to invest in land, Mr. Wright suggested that the country back of Huntington Beach be investigated.

Two weeks before the agreement was signed the buyers offered $700 per acre, and Mr. Worthy agreed to accept it, but there was some delay about making a deposit, and when, about ten days later, they decided to do so, Mr. Worthy declined to accept it, as he had made up his mind that there was no use in being in a hurry to dispose of good land, with beans selling at present prices; and the result was an advance of $100 per acre for their procrastination.

ANNOUNCEMENTS.

We'll Fix It

If your watch or clock is out of the running, bring it to us. We'll fix it and give it back to you in nearly as good a condition as when it was new.

Watch and clock repairing is one of our hobbies. We are really as particular about having you satisfied with a repair job as we are having you satisfied with the goods you buy from us.

To get the greatest amount of satisfaction out of either a watch or clock, it must be inspected and oiled every year or two—once a year is better.

You wouldn't think of buying a new automobile and then trying to run it without oil; neither should you think of letting your watch or clock run year in and year out without a drop of oil. Better let us look after it for you.

STUDENT BODY NOTES.

Wednesday, April 3rd, was important in tennis history for H. B. H. S. We met Orange in a tennis tournament and succeeded in easily winning six matches of the seven. Our tennis stars for the tournament were Emma Warner, Margaret Wallace, Eva Murdy, Florence Rodgers, John Murdy, Royal Lemon, Jack Given, K. Tsuji and Arthur Johnson. The teams, however, were not evenly matched, so that only in one instance did our team have to play three sets. Next Wednesday we meet Santa Ana in tennis on the home courts.

At a stirring Student Body assembly, held on Wednesday, important action was taken on several matters of interest. The meeting was opened by the flag salute by the students. An interesting letter from Mr. Olds was read by the secretary. A letter from Mr. Bisby of Santa Ana requested that four four-minute speakers be sent out, one each week to the Grammar schools of the district, for the purpose of advancing the patriotism and sale of Thrift Stamps. Those elected for this purpose were Cecil McCoy, John Murdy, Royal Jumper and Grace Foley.

What Will the Harvest Bring?

On Most Crops One
CAN ONLY GUESS
But the Growers of
Sugar Beets Are Sure

of a HIGH MINIMUM price under our present contract, which bases the price for beets on the price received for sugar, BUT WITH A GUARANTEE that it will be not less than though the sugar brings 7½¢ per pound.

Under this guarantee the price for 18 per cent beets (which is less than the average test of all beets delivered to our factory) will not be less than $9.00 per ton, and will be higher if sugar brings more than the price named above. THE MINIMUM RETURNS PER ACRE for 18 per cent beets will be as follows on acreage producing from ten to twenty tons:

Yield Per Acre	Minimum Returns for 1918	Increase Per Acre Over Minimum Provided in Previous Contracts
10 tons	$ 90.00	$36.00
11 "	99.00	39.60
12 "	108.00	43.20
13 "	117.00	46.80
14 "	126.00	50.40
15 "	135.00	54.00
16 "	144.00	57.60
17 "	153.00	61.20
18 "	162.00	64.80
19 "	171.00	68.40
20 "	180.00	72.00

The increase is 66⅔%

Copious rains have put fields in ideal condition for preparing seed beds, and land reasonably suitable and properly farmed should yield a highly profitable beet crop.

WEEKLY GREETING.

Great is the consciousness of right. Sweet is the answer of a good conscience.—Whittier.

THE CITY ELECTION.

There is every reason why the result of the city election, Monday, should be highly satisfactory to those who desire the city to progress, as the candidates for city trustees who stand for enterprise were elected. The returns indicate that public service in civic affairs is appreciated by a large majority of the voters, as there is, perhaps, no man in the city who is more willing to donate his time and energy to civic affairs without price than is Trustee-elect E. E. French, and he led all competitors at the polls. Trustee Joseph Vavra is a close second to Mr. French, when public matters are considered, and he was accorded greater support than any other candidate, except Mr. French.

Richard Drew, the new member of the board, has not been so actively identified with public affairs as has Mr. French and Mr. Vavra. However, he is a progressive young man, and will no doubt be a valuable public official.

There is considerable regret at the defeat of Trustee D. W. Huston, as he has a large number of friends who hoped that he would be returned.

THE THIRD LIBERTY LOAN.

The citizens of Huntington Beach are to be congratulated upon the splendid showing made by oversubscribing the allotment for the Third Liberty Loan in three days. The prompt action in tendering financial support to the Government at this time is indicative of a gratifying loyalty to Uncle Sam in his gigantic task of exterminating the Hohenzollern dynasty.

The authorities have designated the ages of the men who must bear arms in this terrific struggle that is shaking the foundation of civilization.

Therefore, only a limited number of the younger men will be permitted to enter the ranks of the Liberty army on foreign fields, where the hills and valleys are stained with patriotic blood; and where a savage foe, that is utterly devoid of any regard for human life, surges to and fro.

Not all can perform military duty but every man that remains behind the lines should deem it a priceless privilege to be afforded an opportunity to buy Government securities and thereby do his part in supporting the army until the Kaiser is sent to hell, St. Helena or some other seaport.

The time has arrived when every citizen is either a friend or a foe and those who are not for us are against us. There is no valid excuse for any man, who can afford to do so, for not investing in bonds or stamps, and it is certain that the one who declines to do so is unworthy of the splendid protection that he is now enjoying as a citizen of the United States.

The war for freeedom cannot be continued without money and the only method the Government has of securing funds for this purpose is to borrow from citizens who have been fortunate enough under its protection to have accumulated enough to be in a position to loan some of it.

The financial slacker should receive the same punishment that is given the military slacker.

CATCHES TWO LARGE CATFISH AT ONE TIME.

G. M. COVER WAS THE LUCKY SPORTSMAN.

Those who were accustomed to catching catfish in the streams in the eastern states will be pleased to know that some fine, large specimens of this luscious variety are now being caught in this section of the universe.

So far as known, the first man to land any of these old-fashioned cats was Geo. M. Cover, chief clerk in the office of A. M. O'Brien, assistant manager of the Holly Sugar Corporation; and no doubt Mr. Cover will be delighted to tell any of his friends what kind of bait is best suited when the sportsman desires to appropriate unto himself a few catfish to save on the meat bills.

Monday was election day, and after Mr. Cover had voted he went to his home at Thirteenth and Ocean and brushed up his fishing tackle and carefully baited the string of hooks, and had visions of a nice lot of fish, kind unknown.

Just as he was about ready to leave for the surf, Mrs. Cover reminded him that he had not eaten any supper, and he set his fishing paraphernalia outside the door while he indulged in the evening refreshments.

There was a noise outside, and the fishing tackle was seen to be in action. Mr. and Mrs. Cover were startled, and thought perhaps some of the hungry fish had flopped out over the bluff and attempted to steal that fine bait on the hooks. The catch proved to be two fine, large tomcats. A hurry-up call was sent in for Marshal John Tinsley, but before he arrived one of the cats tore off one of the hooks and ran away with it. The other prize catch pulled so hard that he straight-

JUNIOR RED CROSS ENTERTAINS PATRIOTS

LARGE AUDIENCE GREETS SERGEANT RAYNER.

BONDS AND STAMPS SOLD

Receipts Total $65; Bond Sales, $1,400; Stamps, $74; Sugarless Candy On Sale.

(By Mrs. Alex. P. Nelson.)

That the patriotism of Huntington Beach is on a par with that of any city in the county was evidenced by the large and enthusiastically patriotic crowd which was in attendance at the Junior Red Cross entertainment, held at the Grammar school auditorium on Tuesday evening. The entertainment was given as an aid to the Third Liberty Loan drive, which is now in progress.

The program was under the supervision of Miss Miller, and its selection and arrangement bear testimony to her excellent executive ability.

The program opened with "The Star Spangled Banner," which was rendered with great fervor by the High school orchestra. This was followed by the patriotic song, "We'll Never Let the Old Flag Fall," by the High school girls' glee club, which was warmly applauded. The solo, "The Ship of State," sung by Irene Engle, was one of the most attractive numbers. Then followed the old familiar song, "Tenting on the Old Camp Ground." The song was rendered by Will Gallienne and a male quartet and was illustrated by the Boy Scouts. The stage setting and lighting effects were realistic and the singing exceptionally touching. Miss Davenport, Mr. Ralph Turner and Mr. Skinner, with Mr. McDonald as accompanist, rendered a violin trio of selected numbers in a manner at once artistic and pleasing. As a closing number of the program Miss Marie Frenger sang the "Marseilles," and the ringing tones of her clear mezzo soprano voice thrilled the audience with the melody of this wonderful and historic classic.

The speaker of the evening was Sergeant Rayner, who had been heard before in Huntington Beach. Sergeant Rayner brings to us a message gleaned from personal experience on the battle fronts of Europe. He painted a gruesome and forceful word picture of the hardships, sacrifices and heroism of the brave boys at the front, and made a fervid and impassioned appeal for each and every one to do their utmost to save and serve in this great world cataclysm.

Following Sergeant Rayner, Mr. Bisby of Santa Ana, chairman of the Orange county Liberty Loan committee, gave a short but spirited address on the imperative need of Liberty Bond subscriptions. While Mr. Bisby was speaking ushers passed through the audience with subscription blanks and an aggregate of $1400 in bonds was subscribed.

Boy Scouts then passed up and down the aisles selling Thrift Stamps, and realized $74 from their efforts.

Candy was on sale, and candy that would certainly have met with the approval of Herbert Hoover, for it was all made without the use of sugar. The sale of candy, together with admissions, netted the High school Junior Red Cross society $65, all of which will be used and expended in war work.

The entertainment was a success in every way and a glowing tribute to the patriotism of Huntington Beach and the enterprise of the Junior Red Cross.

WHO WILL BE THE NEXT MAYOR OF THE CITY?

TRUSTEE FRENCH WILL PROBABLY ACCEPT.

There will be a meeting of the city trustees next Monday evening at 8 o'clock, when the election returns will be canvassed and the new members take the oath of office. The first matter of business will be the election of a presiding officer.

It is not entirely certain at this time who will be the next mayor of Huntington Beach. However, it can be stated positively that it will be either Joseph Vavra or E. E. French, and the chances are that it will be Mr. French—that is, if he decides before that time that he will assume the responsibility.

Mr. French stated Thursday night that he did not want the job, but it is believed that he will accept it if shown that he should do so.

Trustees R. H. Chapin and H. C. Decker each stated emphatically that they would not consider the honor under any circumstances, and Mr. Vavra stated he did not want it, consequently none of the lawmakers are seeking this extra honor and added burden.

Trustee-elect Richard Drew, being a new member, can hardly be considered as being eligible for the position, under the usual parliamentary rules governing deliberative assemblies. Mr. Drew also states he would not accept the presidency of the board.

NEW MANAGER FOR E. K. WOOD LUMBER CO.

CHESTER KNIGHT WILL HAVE CHARGE.

Beginning next Monday morning, Chester Knight of San Pedro will have charge of the E. K. Wood Lumber Co.'s yard in this city, succeeding Raymond Grey, who goes to take charge of the big company's interests in Santa Ana.

Mr. Grey has made many friends while here, who will regret his leaving the city. He is an energetic young man with a very promising future.

NEW PIPE ORGAN AT PRINCESS THEATRE

USED FIRST TIME SATURDAY EVENING.

MUSIC IS WORTH ADMISSION

"Pop" Is Busy Making Improvements, No Matter About the Expense; Piano Will Be No Longer Used.

Chas. H. ("Pop") Endicott is not satisfied unless he is making some improvement at his theatre, and patrons of the Princess during the past week have been listening to a fine new pipe organ, which was installed Thursday of last week, but Mr. Endicott was ready to have anything said about the new instrument until he had tried it out.

Mr. Endicott states it will require some time for him to have the control of the new organ that is required in order to get the best results for his audiences; and he is practicing four to five hours daily. The operator of this new instrument has to play with the feet as well as the hands, and as Mr. Endicott has not been using his feet for such work, to any extent, for some time, it will require considerable effort to again become as proficient with his feet as his hands.

The music is a great improvement, and in the near future the use of the piano will be discontinued, and those who attend will get their money's worth in the music alone.

The dimensions of the new organ are as follows:

Length, 7 feet, 9 inches; depth, 4 feet, 3 inches; height, 5 feet, 11 inches; weight, 940 pounds. Two manuals and pedals, each manual is 5 octaves, CC to C4; 61 notes, 16 stops; pedals are concave radiating 2 and ½ octaves CCC to F 30 notes.

Stops—Great Manual: Clarinet, 16 ft., 61 notes; Diapason, 8 ft., 61 notes; Dulciana, 8 ft., 61 notes; Trumpet, 8 ft., 61 notes. Swell Manual: Oboe, 8 ft., 61 notes; Salicional, 8 ft., 61 notes; Flute, 4 ft., 61 notes; Harp Aeolienne (two ranks), 2 ft., 24 notes.

Pedal organ open diapason, 16 ft., 30 notes; stopped diapason, 16 ft., 30 notes.

Couplers—Swell to great, great to pedals, octave coupler (great), great to pedals, swell to pedals.

Accessories—Vox Humana Wind Indicator, electric blower, pedal movements, full organ, balanced swell.

UTILIZING PARKING SPACE.

Those who desire to know how to make use of the parking space in a way that would make Mr. Hoover smile and offer congratulations should notice the row of fine potatoes growing along Ninth street, between the sidewalk and curb, at the home of Judge S. A. Moore.

"THE FIGHTING TRAIL."

Episode 10—"The Sheriff."

"I'm sorry," said the Commissioner, "but I can do nothing for you." The sheriff gave him a significant glance, and he went on: "You see, they have the title deeds and have staked out a claim. Possession is nine points of the law."

He was an old man, the Commissioner, a cringing soul to whom the petty clerkship meant the very means of eyistence. He owed that job to Causley, and paid the debt by sacrificing his honest convictions when the sheriff said the word. Nevertheless a look of mingled discomfiture and regret showed in his face as he watched Nan's plucky effort to restore her husband's courage.

Hogan drove up at the door as they emerged, the brave piece of bunting on the rear of his car still flapping in the winds. The placard above it read:

For Sheriff
"SQUARE DEAL" HOGAN

It was Nan that saw the opportunity, not Gwyn. She pointed eagerly.

"Look, dear, look! Half the voters in Lost Mine were at the wreck today. They saw a good example then of the Causley brand of justice, and now is our chance to show the people that he really is a scoundrel. I'm going to make a speech!"

Standing in the back of the bright red machine, one hand above her head and hair flying in the wind, Nan made a picture that drew the sympathy of every man in the crowd. Swept away by the emotion of a great cause, eyes bright almost to tears, she told her story with dramatic effect. Even the Commissioner, listening behind his closed door, could sense the rising enthusiasm. In it he read a significant message for himself.

"Who will vote for Hogan?" she cried, and the call was greeted with a gusty chorus of approval. Hats waved wildly as she stood looking down into the surging sea of faces about her impromptu platform.

"Good work, little girl!" called a big fellow over at the edge of the crowd. "Righto! We're for you!" came the answering shout from an other.

Nan raised her hand for silence, ready to continue her speech, but as the cheering subsided the distant rapping of ribe fire came to their ears. Mingled with the single shots came now and then what sounded like a sustained volley. The firing seemed to come from the direction of the mine.

* * *

When Von Bleck drove off he did so with a definite purpose. Now that he had the deed recorded he must also gain possession of the mine. With the double claim of title and possession he knew there would be no danger of his plans hanging fire. But he must have both to be safe. Straight to Brown's saloon he drove, and there in the rear room, gathered in a tense circle around the rolling dice, he found his band whiling away the time at their accustomed pursuits. They sprang up as he entered, eager at the prospect of another fight.

"Well," announced Von Bleck, "this afternoon we'll capture the mine. Get busy now. I want results this time. Rawls will lead the attack. Shoestring, you and 'One-Lung' will mount the gatling gun on the front of the engine and follow. Casey will be waiting for us at the bridge

"THE LOVE DOCTOR" SATURDAY EVENING

Clara Kimball Young Here Sunday Night.

"BIG TIMBER" WILL BE SHOWN WEDNESDAY NIGHT.

Saturday Night.

"The Love Doctor," starring Earle Williams and Corrinne Griffith, two Vitagraph stars.

Fate has it that the two bright stars in "The Love Doctor" both made their start towards fame in New Orleans. Earle Williams got his first stage engagement there in the Baldwin-Mellville stock company and in Mardi Gras carnivals Miss Griffith, who is a native of the Crescent City, got the inspiration which lead her into photoplay. The Vitagraph company has one of its strongest plays in "The Love Doctor." It is the story of a surgeon who interchanged the brain cells of two girls that he might give one power to love and to save the other from herself. In the cast are Webster Campbell, Evart Overton, Patsy De Forest, Adele de Garde, and Frank McDonald.

Second show starts at 9:10.

Sunday Night.

Vitagraph Big V comedy, "Boasts and Boldness;" the Pathe Weekly; the Gaumont Weekly; "The Re-Incarnation of Karma," with Lillian Walker and Rosemary Theby in the leading roles; " A Lesson In Jealousy," with Clara Kimball Young, Sidney Drew and Harry Morey playing the leads; and the tenth episode of "The Fighting Trail." A great combination. Do not miss it.

Second show starts at 9:10.

Wednesday Night.

The attraction Wednesday will be "Big Timber," a story of the high Sierras, with a thread of interest running through it, with Kathlyn Williams and Wallace Reid as the stars.

Stella Benton, a young society girl who has lost her beautiful voice through the death of her father, goes to live with her brother Charles in the lumber camp. Charles Benton is having a struggle to make both ends meet and when his cook quits, he makes his sister do the work for the hundred men in the lumber camp. Jack Fyfe, a neighboring lumber man, meets Stella and gradually falls in love with her, but the love is not reciprocated. Seeing that she is being overworked, Fyfe offers to marry her in spite of the fact that she does not love him. A child is born of this loveless marriage, and the couple are reasonably happy until Walter Monahan, a wealthy lumberman, begins to make love to Stella. She gradually becomes tired of her husband and, when the child dies, decides to leave him. Her voice returns and she makes a substantial success as a concert singer. Monahan, who has professed a love for her, becomes indifferent, but she will not return to Fyfe, in spite of his pleadings.

Monahan, jealous of Fyfe's success, sets fire to his holdings and is caught in the act. Friends telephone this fact to Stella and she immediately returns to the lumber camp and there, at their home, finds Jack, heart-broken, as his holdings are on fire and there is nothing but a heavy rain which could save them.

She comes to him and offers to use her own money to retrieve his lost fortune, and as she goes into his arms the heavy downpour of rain comes and they are safe.

Second show starts at 9:10.

LUMBERMEN'S DAY AT ORANGE COUNTY PARK.

The picnic of the lumbermen and their families and friends last year was such a success that they plan to have the picnic again at Orange County Park on Saturday, May 11, 1918, and all the lumber yards and mills will observe the holiday.

DECREASE IN ANNUAL CUT OF CALIFORNIA LUMBER.

Reports received to date by the Forest Service from sawmills in California cutting annually five million feet and over, indicate a total production of 1,293,345,000 ft. b. m. in 1917, according to Acting District Forester Headley, who has charge of the Federal lumber census for the state. In 1916 the cut of fifty mills of this capacity was 1,311,536,000 ft. The cut of identical mills for 1917 was 1,293,612,000 ft., a decrease of 17,924,000 ft. b. m.

No other bluing equals Red Cross Ball Blue. Makes the laundress happy. All grocers.

ANNUAL OUTPUT OF LUMBER DECREASING.

INCREASE SHOWN ONLY IN NINE STATES.

A lumber production of 39,200,000,000 feet in the United States in 1917 is the preliminary estimate of the Forest Service, based on incomplete reports received up to February 26. About one-half of the 34,000 mills listed by the Forest Service and the National Lumber Manufacturers' Association had at that time made reports. Because of the need for an accurate census, caused by the country's wartime demands for lumber, officials in charge of the work are urging delinquent mills to report as soon as possible.

The estimate is based upon the reported cut of 845 identical sawmills, each of which cut five million feet or more lumber in either 1917 or the preceding year. The reports of these mills indicate that in nine states there was an increase in production and in the rest of the country a decrease. The largest increase was in Missouri, where the gain over the 1916 cut was almost 44 per cent. In the South, Louisiana, Georgia, Florida and Alabama showed increases varying up to about 10 per cent. Wisconsin and Michigan, in the North, and Washington and Oregon in the Northwest, were the only other states in which the cut increased. North Carolina, with a decrease of more than 22 per cent, showed the greatest falling off in production. Maine had a shortage of about 20 per cent. The reports from other states indicate varying percentages of decrease, with an average for all states of 2 per cent.
